

## ABC Advanced Bird Control®

Advanced Pest Bird and Nuisance Animal Management Systems

**ABC** control systems use only the best barriers, deterrents and repellents for effective, humane and long lasting control of pest birds and nuisance animals.

- Surface Barriers
- Wire Deterrents
- Exclusion Netting
- Access Control
- Safe Repellents
- Much more..

ABC Advanced Bird Control® is proud to be a division of Nixalite® of America Inc

## Bird Barriers

ABC offers Nixalite® Premium Bird Control Models for total surface control. When nothing but the best will do, the only choice is Nixalite®. Available in 3, all stainless steel models.

### Nixalite® Premium Control

All 316 stainless steel barrier installed on all types of surfaces to effectively and humanely repel pest birds and climbing animals. With up to 120 wires per foot and 180° coverage, Nixalite provides the best gap-free surface protection. Works for all bird species, in all levels of infestation. When you need the best, Nixalite is the only choice. #1 since 1950.

- All 316 stainless steel strip and wire barrier
- Works for all birds in all levels of infestation
- 120 points/foot and 180° gap-free coverage
- 3 models available in lengths up to 48" long
- Standard mounting hardware included
- 100% UV proof, no plastics or chemicals
- 10 year warranty for superior quality barrier
- All models available in ColorCoat colors
- Available in Soft-Tip or pointed wires
- 3-part specs at [www.abcbirdcontrol.com](http://www.abcbirdcontrol.com)

## Bird Deterrents

E-Spike and FliteLine® large bird deterrents should not be expected to consistently deter small birds or heavy bird infestations. For total control use Nixalite® Premium Bird Control Models.

### Introducing E-Spike 6405

An economy spike to discourage pigeons and seagulls responsible for intermediate infestations. Not for small birds or when birds are present in heavier populations. For total surface control use Nixalite Premium Models.

- All stainless steel construction, no plastic
- Good value, easy to install, inconspicuous
- 6" wide, 4" high, 48 points/ft., up to 4 ft long
- For specs go to [www.abcbirdcontrol.com](http://www.abcbirdcontrol.com)
- Please contact us for assistance regarding the appropriate control for your application

### FliteLine® Post & Wire

An inconspicuous, stainless steel post and wire deterrent designed to discourage large birds from landing on all types of surfaces. Discreet, easy to assemble and install. For total surface control use Nixalite Premium Control.

- All stainless steel FlitePosts and FliteLine
- Stronger, thinner posts with 2 hole designs
- 1/32", UV coat, 1x7 stainless steel cable
- All-weather hardware or stainless FliteBase
- For light populations of large bird species
- For specs go to [www.abcbirdcontrol.com](http://www.abcbirdcontrol.com)

## Surface Cleaning

The first step of any installation must be to completely sanitize and deodorize the surface. Use ABC cleaning products to completely neutralize bird and animal wastes for safe removal.

### ABC Surface Cleaners

Effectively and safely neutralizes bird and animal waste. Prepares the surface for installation while protecting crews from harmful germs and parasites often found in bird and animal waste and refuse.

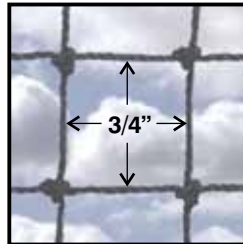

- 7 different cleaning products available
- Powerful, fast acting, non-residual cleaners
- All-surface, natural enzyme based cleaners
- Long lasting, antimicrobial crew protection
- Combine products for ultimate protection
- Contact ABC for product recommendations

## Netting Systems

ABC offers a complete line of netting and netting hardware for pest bird and nuisance wildlife exclusion projects. Our all-weather netting hardware fastens the netting to nearly any surface.

### K-Net HT™ Bird Netting

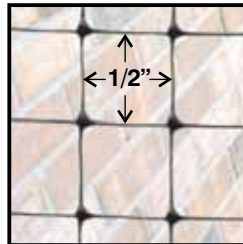

Strongest knotted multi-strand bird netting. Ideal for long term use in exposed environments. Seamless net made from high density polyethylene. Made to ISO 9001 2000 Quality Management Standards.

- 12 Ply strands, 75 lb. knotted break strength
- UV, flame, abrasion and rot resistant netting
- 3/4" square mesh with steam set knots
- Architectural, agricultural, aquacultural uses
- 25 and 50 ft widths, 25, 50 and 100 ft lengths
- Unbeatable strength, durability and value

### PollyNet® Premium

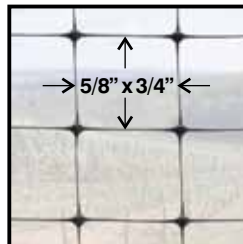

Durable extruded single strand net made from polypropylene. Seamless netting is light yet tough enough for all types of bird exclusion projects. 1/2" square mesh is especially suited for smaller bird species.

- Economical, effective, easy to install
- UV resistant, polypropylene netting
- 1/2" square mesh for dimensional stability
- Best choice for problems with small birds
- 14 ft widths, 10, 50, 100 and 250 ft lengths
- Bulk rolls and custom sizes available

### PollyNet® Lightweight

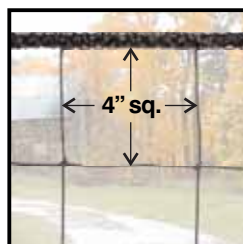

Extruded single strand net made from polypropylene. Seamless netting is extremely lightweight and nearly invisible when installed. Use where low visibility and economy are more important than longevity.

- Economical and inconspicuous netting
- Thin strands and 3/4" x 5/8" mesh
- Indoor and outdoor applications
- For seasonal and/or temporary applications
- 17 ft widths, 10, 50, 100 and 250 ft lengths
- Bulk rolls and custom sizes available

### Deer Block™ Deer Fence

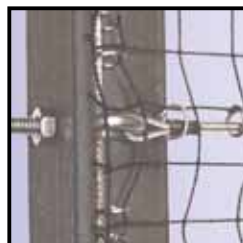

Super strong perimeter and enclosure deer fencing made from multi-strand polyethylene mesh. Keep deer away from structures, landscaping, public and private roads, golf courses and more.

- Many times less expensive than metal fence
- UV, rot, abrasion and flame resistant fence
- 8ft x 300ft, seamless piece with HD border
- Made of high-density virgin polyethylene
- 4" sq. mesh with thin & strong 36-ply strands
- 175 lb. per strand knotted breaking strength

### Netting Hardware

Complete, all-weather netting hardware and installation accessory line to fasten all types of netting to nearly any surface. Available in economical polypropylene, high strength stainless and galvanized.

- High quality tensioned cable hardware
- Economical, UV resistant, poly hardware
- Fastens netting to nearly any type of surface
- All the accessories and tools needed
- Combine individual items to suit application
- Perimeter and field support for all netting
