

# Small Repeating Pigeon Trap

Designed as a small, simple and portable pigeon trap that can be used anywhere pigeons are a nuisance. Pigeons can enter through the one-way doors at either end of the trap. Ideal for do-it-yourself control or professionals with a small pigeon problem. Using in tight spaces or small areas where there are just a few birds. This repeating trap can hold about 5 pigeons at a time. NOTE: do not leave the pigeon trap unattended for long periods of time.

## Item# SW2412 - Small Repeating Pigeon Trap

One-Way Door  
at Each End

24"L x 12"W x 8"H  
14 gage wire mesh

Pre-bait the problem area for several days. Once birds are used to the location, place the trap in the pre-baited area. Pre-bait the trap by tying open the one way door so birds can move freely in and out of the trap as they eat. Apply bait in a trail that starts outside of the trap, leads in through the doors and ends with the bulk of the bait in the middle of the trap.

After acclimating to the trap, untie the door and capture the pigeons. Make sure to inspect the trap every day. Remove the pigeons through either of the 2 one-way doors.

Provide food and water in the trap. Partially cover the trap to create shelter from the elements. Do not leave birds in the trap for long periods of time.

**IMPORTANT NOTE:** Having the best trapping equipment does not guarantee trapping success. Bird and animal trapping can be as much art as it is science. Nixalite of America Inc guarantees the workmanship of the bird traps. WE DO NOT guarantee that you will catch anything. Effective trapping takes careful planning, a knowledge of the target species, the correct bait, trap location and more.
