

# The Black Hawk

High performance

Covers large open areas

Bird Fogging

Mosquito control

## High Performance and High Output In A Versatile Thermal Fogger

The **Black Hawk Pulse Jet Thermal Fogger** is proven effective and efficient at dispersing oil based solutions such as bird fogging repellents, insecticides, disinfectants and more. No other thermal fogger dispenses oil based solutions at such high volumes this efficiently, this quickly.

The Black Hawk excels at the fast and efficient fogging of large areas - especially in obstructed areas such as woods or storage facilities. It has proven to be an effective dispersal method of mosquito control over wide areas. Use the Black Hawk to combat West Nile, Malaria, Dengue fever and other mosquito borne diseases.

The Black Hawk features new electric starting systems to assure greater reliability and ease of operation. It can take just minutes to fog warehouses, factories, greenhouses, parks, livestock containment, shopping centers, schools, restaurants, hotels and many more.

The **Black Hawk Pro** is a model that includes an adjustable mounting base that allows for platform or truck bed mounting. Call for info.

The Black Hawk  
Pulse-Jet Thermal  
Fogger

### Standard Features

- Single 44 hp pulse-jet principle engine.
- Revolutionary electric starting system.
- All formulation controls at operators hand.
- Formulation / fuel tanks are not pressurized.
- Filters in fuel and formulation lines.
- Highest output portable (114,000cu.ft./min.)
- Can be secured to the bed of the truck.
- Powered by batteries or a 12v battery.
- Chemical resistant epoxy paint
- 1 year warranty
- Drum accessories available.
- Comes complete with instruction manual, batteries, auxiliary start cable and 2 clean-out brushes.

### Specifications

**Model:** 2620 Series 2  
**Engine:** Resonant pulse principle  
**Performance:** 44 hp/hour or 33 kw/hour  
**Fuel Type:** Gasoline  
**Fuel Consumption:** 0.6 GPH or 2.3 liters/hr  
**Fuel Tank:** Corrosion resistant - 0.5 gallon or 1.9 liters  
**Formulation Output:** 0-18 gal/hr, or 0-68.4 liters/hr.  
Produces 114,000 cubic feet of output per minute  
**Droplet Size:** 0.5 - 50 microns  
**Formulation Container:** 3 gallons or 11.4 liters  
**Power Supply:** Eight 1.5 V "D" size alkaline batteries.  
Any 12 V DC vehicle battery (connect to cigarette lighter receptacle with auxiliary start battery cable) supplied.  
**Overall Dimensions:** 69" Long x 15" Wide x 17" High  
**TOTAL WEIGHT:** 73 lbs
