

# Cobweb Eliminator

Eliminates, Cleans and Inhibits Spider Webs!

Ready to use, all natural ingredients!

**Cobweb Eliminator** is the only patented product formulated to eliminate, clean and inhibit the reformation of spider webs. Great around people, pets, plants, and crops when used as directed. Cobweb Eliminator is authorized for use in food processing plants, restaurants and food storage areas.

Cobweb Eliminator neutralizes and breaks down the spider's web attachment points, making web removal easy. It leaves a residue that continues to inhibit a spider's web adhesive properties, discouraging web reformation for months.

## Surfaces:

Apply with confidence on wood, painted surfaces, vinyl, fiberglass, sheet metal, concrete and masonry. For unusual surfaces, test a small area first to make sure there is no adverse reaction. When in doubt, test it first! Spray on plants, to keep spider webs from forming on the foliage.

## Application:

- On smooth surfaces, apply with a sponge.
- On rough surfaces, apply with a brush or sprayer.
- On plants spray every 2 to 3 months or as necessary to prevent spider webs from forming. To prevent burning, apply in the morning or late afternoon hours.

Remove spider web residue with a stiff broom. Repeat application as needed. A quart bottle will cover approximately 275 square feet of smooth surface. Rough or porous surfaces will reduce coverage.

## Efficacy:

Cobweb Eliminator will last for 6 months indoors and 2 to 3 months outdoors.

- Ready to use
- No mixing
- Non-Staining
- Easy to apply
- Non-toxic
- No poisons
- Last a longtime
- Safe for people, pets and plants

## Uses:
