

Golden Eagle

Efficient - High Performance - Lightweight - Easy To Use - Versatile Fogger

The Golden Eagle Pulse-Jet Thermal Fogger produces high volumes of fog for application of insect control, bird repellents, disinfectants and other fogging solutions.

No other fogger dispenses oil based bird repellents, insecticides, fungicides, germicides, disinfectants and other chemical products as easily, effectively and economically as the Golden Eagle. It is unsurpassed for fogging hard-to-reach areas indoors or outdoors. Proven effective in dispersing mosquito control that helps fight West Nile Virus, Malaria, Dengue Fever and many other diseases carried and transmitted by mosquitos.

Golden Eagles feature a revolutionary electric starting system that helps assure greater reliability, and ease of operation. For its size, no other machine surpasses the Golden Eagle's fog capacity or its speed in completing difficult chemical application jobs such as warehouses, food processing plants, greenhouses, parks, camp grounds, cattle barns, swine/poultry houses, grain mills shopping centers, schools, restaurants, and many more applications.

Standard Features

- Single 33 hp pulse-jet principle engine.
- Revolutionary electric starting system.
- All formulation controls at operators hand.
- Formulation / fuel tanks are not pressurized.
- Filters in fuel and formulation lines.
- Lightweight and man portable.
- Can be secured to the bed of the truck.
- Powered by batteries or a 12v battery.
- Chemical resistant epoxy paint
- 1 year warranty
- Drum accessories available.
- Comes complete with instruction manual, batteries, auxiliary start cable and 2 clean-out brushes.

Specifications

Model: 2610 Series 3
Engine: Resonant pulse principle
Performance: 30 hp/hour or 22 kw/hour
Fuel Type: Gasoline
Fuel Consumption: 10.5 GPH or 1.9 liters/hr
Fuel Tank: Corrosion resistant - 1.2 qts or 1.0 liter
Formulation Output: 0-9 gal/hr, or 0-34 liters/hr, over 57,000 cubic foot (1600 cubic meter) fog per minute.
Droplet Size: 0.5 - 50 microns
Formulation Container: 1.1 gallon or 4.2 liters
Power Supply: Eight 1.5 V "D" size alkaline batteries. Any 12 V DC vehicle battery (connect to cigarette lighter receptacle with auxiliary start battery cable) supplied.
Overall Dimensions: 52" Long x 9.5" Wide x 14.5" High
TOTAL WEIGHT: 34 lbs
