

# Avian Migrate™

## GOOSE AND BIRD REPELLENT

### *Bird Repellent*

#### Small Area Spraying ... Frequently Asked Questions

REFER TO THE PRODUCT LABEL FOR COMPLETE DIRECTIONS, RATES AND CAUTIONS.

ALWAYS READ AND FOLLOW ALL LABEL DIRECTIONS

Q. Can I use an electric powered, backpack or pump-up sprayer to apply Avian Migrate™ Bird Repellent?

A. Yes, you can. Refer to “Spray Application Directions” of the label for complete details. If your area is less than one acre, see the table below:

1/8 acre (5445 sq. ft.)	Shake or stir 6 to 8 ounces Avian Migrate™ then add to 1.25 gallons of water.
1/4 acre (10890 sq. ft.)	Shake or stir 12 ounces to 1 pint of Avian Migrate then add to 2.5 gallons of water.
1/2 acre (21780 sq. ft.)	Shake or stir 1.5 to 2 pints of Avian Migrate™ then add to 5 gallons of water.

Q. What type of spray pattern is preferred?

A. A fine spray mist that covers the entire area to be treated is the preferred pattern.

Q. Can Avian Migrate Goose and Bird Repellent be use on painted or stained wood, vinyl or aluminum siding or other exterior or interior surfaces?

A. It is recommended that the solution of Avian Migrate™ be tested on an inconspicuous area to determine the potential for damage or discoloration. Avian Migrate™ should not be used in or on occupied dwellings.

Q. If I am treating my lawn for geese, how often should I apply Avian Migrate?

A. It is suggested that Avian Migrate™ be applied at 7 to 10 day intervals or after every mowing. Refer to “Turf and Dydroseeding” directions of the label for complete details. Re-application is suggested in the event of a significant rainfall.
