Bird-Net Economy, Value, Versatility

Seamless construction, economy and adaptability make Bird-Net perfect for all types of bird exclusion projects. Made from 6-ply polyethylene, Bird-Net is abrasion, rot, flame and UV resistant. Both the 3/4" and 2" square nets are available in black and stone colors. Custom net sizes may be available. Contact Nixalite for more information.

PART 1 - GENERAL
1.1 - SYSTEM DESCRIPTION
Bird-Net Knotted Bird Netting is constructed of abrasion, UV, flame and rot resistant, high density polyethylene (HDPE). The 3/4” (1.9cm) square mesh keeps out all but the smallest of birds while the 2” (5.1cm) square mesh nets should be used for larger bird species.

Bird-Net installation hardware provides a solid foundation that long lasting installations require. ABC Nixalite offers netting hardware to fasten all brands of bird netting to all types of surfaces. Surface Cleaning System includes surface disinfectants and deodorizers to neutralize potentially hazardous bird or animal waste and prepare surface for installation.

1.2 - QUALITY ASSURANCE
A. Installer must obtain, review and understand all Bird-Net and net hardware installation guidelines. Installer must be familiar with the proper installation procedures for the Bird-Net and net hardware.

1.3 - SUBMITTALS
A. Manufacturer’s literature including specifications and installation guidelines for the Bird-Net, net hardware and specified surface cleaning system.
B. Sample of the Bird-Net not less than 6” square (15.2cm square).

1.4 STORAGE & HANDLING
Provide storage to keep all netting and netting hardware shipping boxes dry, clean and undamaged. Do not stack or place other packaging or objects on the boxes.

PART 2 - PRODUCTS

2.2 BIRD-NET BIRD NETTING
Material: high density polyethylene (HDPE). UV, flame, abrasion and rot resistant.
Construction: Seamless, knotted.
Colors: Black and Stone available for all types.

1.3 - SUBMITTALS
A. Manufacturer’s literature including specifications and installation guidelines for the Bird-Net, net hardware and specified surface cleaning system.
B. Sample of the Bird-Net not less than 6” square (15.2cm square).

3/4"sq. (1.9cm) for all pest birds. 2"sq. (5.1cm) for larger bird species.

Piece Sizes (all types): 25’x25’(7.6m2), 50’x50’ (15.2m2), 50’x100’(15.2 x 30.4m).
Thermal & Physical Properties:
Melting point: 250° F.
Withstands short periods at 500° F. Remains stable at 250° F.

2.3 NET HARDWARE
A. Installer to contact manufacturer for up-to-date information and recommendations for hardware applications and procedures.
B. Manufacturer to recommend the hardware that best suits the netting application.

PART 3 - EXECUTION
3.1 - INSPECTION
A. Visually inspect the surfaces that will receive the net hardware and all areas that will end up behind or inside the net installation. Note any damaged surfaces or incomplete construction that could compromise the installation.
B. Note all areas, surfaces or objects that may require maintenance or periodic replacement after the bird net is installed (i.e. lights, electrical equipment, etc.). Plan on using the appropriate net hardware to allow access after installation.
C. Note any objects or conditions that could damage the installed bird net. Plan on installing the Bird-Net and net hardware to avoid these conditions.

3.2 - PREPARATION
A. Field Measurements: Verify dimensions of the areas to be enclosed. Make sure you have sufficient quantity of netting, netting hardware and surface cleaning products to properly install the Bird-Net system.

3.3 SURFACE CLEANING
A. All surfaces to be clean, dry and free of obstructions before bird control is installed.

3.4 - INSTALLATION
A. Install the net hardware as recommended by manufacturer.
General order of installation: Install perimeter and support hardware; Attach bird netting to the installed hardware; Install access or additional support hardware as specified.
B. Install Bird-Net as recommended by the manufacturer. If necessary cut the netting to fit the area. If multiple pieces are needed, join the pieces together with the recommended seam fastening hardware.
C. Install Bird-Net to avoid contact with machinery, vehicles, extreme heat, tree branches, etc. Make the necessary adjustments to keep the netting a sufficient distance from these objects or conditions.
D. Finished Bird-Net installation to be taut, free of wrinkles, gaps & openings.

3.5 ADJUSTMENTS / CLEANING
A. Remove debris and waste materials from project site.
B. Inspect finished installation. Make any adjustments needed to conform to manufacturer’s installation guidelines.
