

1 step hard surface disinfectant

Ready-to-use, acid free cleaner, disinfectant and deodorizer that kills SARS, MRSA and Coronavirus 2 (that causes COVID-19)

Proven effective in killing:

Staphylococcus aureus (Staph), Staphylococcus aureus - Methicillin Resistant (MRSA), Pseudomonas aeruginosa, Streptococcus pyogenes (Strep), Escherichia coli, Salmonella enterica.

Hepatitis B, Hepatitis C, Herpes Simplex Type 1, Herpes Simplex Type 2, HIV-1 (AIDS virus), Influenza Type A/Brazil, Respiratory Syncytial (RSV), Human Coronavirus, SARS Associated Coronavirus, SARS Coronavirus 2 that causes COVID-19.

Refer to the ENCORE PLUS product label or technical sheet for a full list of the pathogens that ENCORE PLUS can eliminate.

Applications:

Surfaces - porcelain, ceramic tile, fiberglass, formica, urinals, sinks, toilets, shower stalls, walls, floors and counter tops. Hard non-porous surfaces that people interact with frequently.

Locations - hospitals, nursing homes, doctor's office and examination rooms, schools, sports & recreational facilities, offices, exercise facilities, airports, beauty shops, janitorial services, retail areas, convenience stores, public areas and many more.

ENCORE PLUS is a one step, non-acid disinfectant and cleaner that is a bactericide, virucide (HIV-1, Hepatitis B and C, Coronavirus 2 which causes COVID-19), fungicide and inhibits the growth of mold, mildew and the odors they can cause. It has been formulated to reduce cross-contamination between treated surfaces in hospitals, schools, institutions and industry.

Features & Benefits -

- One-Step, ready-to-use disinfection, no mixing or dilution.
- Fresh floral fragrance, no medicinal or chemical odor
- Use on hard surfaces like toilets, faucets, urinals, sinks, showers, etc.
- Use in hospitals, nursing homes, schools, airports, public restrooms, etc.
- Kills Coronavirus 2 (causes COVID-19), MRSA, HIV-1, Hepatitis B & C, etc.

Virucidal, Fungicidal, Mold & Mildew Control - For visibly soiled areas a preliminary cleaning is required. Apply ENCORE PLUS undiluted to hard non-porous surfaces, thoroughly wetting the surface with a sprayer, cloth, sponge or by immersion. For SARS-CoV2, treated surfaces must remain visibly wet for 3 minutes. For fungicidal, mold and mildew, treated surfaces must remain visibly wet for 10 minutes. Let air dry or wipe dry with a clean cloth, sponge or mop. See the product label for specific directions.

ENCORE PLUS can be applied with pump style or battery operated tank sprayers to treat large areas quickly and efficiently. For spot applications you can use a bottle sprayer or one of the smaller multi-purpose tank sprayers available from Nixalite of America Inc. ENCORE PLUS can also be applied by towel, mop or cloth. When cleaning contaminated surfaces wear a minimum of eye and respiratory protection and disposable gloves.

Contact Nixalite for more information or visit the ENCORE Plus web page at www.nixalite.com/product/encore-plus-one-step-disinfectant-spray

ALWAYS read the product label before application!
