# NET-ZOOKA™

## Hand Held, Air Powered Net Launcher Captures Birds And Small Animals Up To 60 Feet Away

**NET-ZOOKA** is a hand held, lightweight net launcher designed to humanely capture birds and small animals indoors and outdoors. It has been used successfully in warehouses, garden centers, grocery stores and more. Capture and relocate stubborn pest birds that resist other methods of control.

**AMMUNITION:** NET-ZOOKA uses 16 gram CO<sup>2</sup> canisters. This small canister can launch the weighted capture net nearly 60 feet. Each canister yields one shot. When fired, the compressed gas launches each of the four padded corner weights attached to the net.

**EFFECTIVE RANGE:** While it can launch the net 60 feet, most successful bird and animal captures occur within 30 feet of the operator.

**CAPTURE NET SIZES:** The standard net is 5ft x 5ft with other net configurations available (up to 8ft x 8ft). To reuse the net after firing, untangle the net and follow the reloading directions provided on the instructional DVD included with the launcher.

### KITS & PARTS:

Item	Description
FF NETZ	1 NetZooka handle, 1 head w/5x5 net, 4 CO <sup>2</sup> , DVD, Alum. case
FF NETZ 2H	1 NetZooka handle, 2 heads w/5x5 net, 8 CO <sup>2</sup> , DVD, Alum. case
