# Air Powered C-Ring Tool From Nixalite

New air powered C-Ring Tool installs stainless steel C Rings quickly around a wide variety of objects including bird netting, cables and ropes, wire mesh, bird/animal trap wire and more. The C-Ring Tool saves you time and money. Tight

closure jaws make it easier to install rings around bird netting and the supporting cables. It is many times faster than the hand operated manual ring tools. It can pay for itself the first time you do a large bird netting enclosure.

## Specifications
