Fungus: Aspergillus flavus, Aspergillus fumigatus, Aspergillus glaucus var. tonophilus, Candida albicans and Trichophyton mentagrophytes (Athlete's Foot).

Refer to the QD-64 Technical sheet for a full list of the pathogens that QD-64 can eliminate.

Applications:

Use to disinfect and deodorize any area or surface that interacts with a significant number of people on a day to day basis.

Including but not limited to; bathrooms, kitchens, hospital rooms, medical offices, nursing homes, daycare centers, bars, cafeterias, restaurants, class- rooms, prisons, exercise facilities, hotels, motels, public restrooms, shower and bath areas, barber shops, campgrounds, playground equipment, airplanes, public transportation, emergency vehicles, mobile homes, cruise ships, taxis, trains, passenger terminals and more.

QD-64 is a multipurpose disinfectant concentrate that cleans, deodorizes and disinfects in one labor saving step. QD-64 contains synthetic detergents, emulsifiers, water softening agents, and two quaternary ammonium germicides that are EPA registered and USDA authorized when used as directed.

Features & Benefits -

- Concentrated - mix at 2 fl.oz. of QD-64 per gallon of water
- Kills a long list of Gram-negative and Gram-positive organisms
- Available in Lemon and Spring Fresh fragrances
- Kills MRSA (Methicillin-Resistant Staphylococcus aureus)
- Kills Pandemic 2009 H1N1 Influenza A Virus (Swine Flu)

General use directions - Remove and properly dispose of any heavy deposits from surface. For basic disinfection and deodorizing, wet the surface with a solution of 2 fl.oz of QD-64 per gallon of water. Keep wetted for at least 10 minutes. Wipe dry or allow to air dry.

For typical use, the dilution rate is 1:64 or 2 fl.oz./gallon of water. For heavily contaminated surfaces, mix at a 4 to 6 fl.oz./gallon of water. Do not breathe spray. Wear P100 respirators or better when spraying or fogging. See the product labeling for more information.

Application: The QD-64 can be applied with pump style or battery operated tank sprayers to treat large areas quickly and efficiently. For spot applications you can use a bottle sprayer or one of the smaller multi-purpose tank sprayers available from Nixalite of America Inc. QD-64 can also be applied by towel, mop or cloth. When cleaning contaminated surfaces wear a minimum of eye and respiratory protection as well as disposable gloves.

Contact Nixalite for more information or visit the QD-64 web page at www.nixalite.com/QD64sanitizer.aspx.

ALWAYS read the product label before application!
