

35" x 16" x 8" Collapsible Pigeon Trap

Medium sized, knock-down trap for pigeons. This collapsible repeating pigeon trap has four one-way entry doors (one on each side) and a centered top access door for easy bird removal. Built from 14 ga. galvanized wire with a 1" x 2" mesh this pigeon trap is designed to be economical, durable and portable. Holds up to 12 pigeons at a time. Will accept the #SWWF8 water and food station for 8" high traps. This trap collapses down to 1" high for easy storage.

Item# SW3516KD
Knock Down Trap

35" L x 16" W x 8" H
14 gage wire mesh

Pre-bait the problem area for several days. Once birds are used to the location, place the trap in the desired location. Pre-bait the trap by tying open the one way doors so birds can move freely in and out of the trap as they eat. Apply bait in a trail that starts outside of the trap, leads in through the doors and ends with the bulk of the bait in the middle of the trap.

After acclimating to the trap, untie the doors and capture the pigeons. Inspect the trap every day. Remove the pigeons through the top access door.

If using the #SWWF8 Food/Water station, refill with water and food as needed. Use the optional #SWS3516 to cover the top of the trap and protect the birds from direct sunlight. Do not leave birds in the trap for long periods of time.

IMPORTANT NOTE: Having the best trapping equipment does not guarantee trapping success. Bird and animal trapping can be as much art as it is science. Nixalite of America Inc guarantees the workmanship of the bird traps. WE DO NOT guarantee that you will catch anything. Effective trapping takes careful planning, a knowledge of the target species, the correct bait, trap location and more.
