

# Scare Away Bird Reflector Assembly Instructions

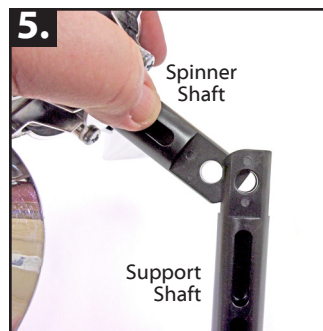

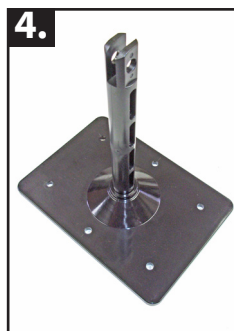

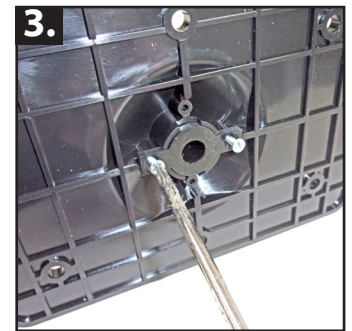

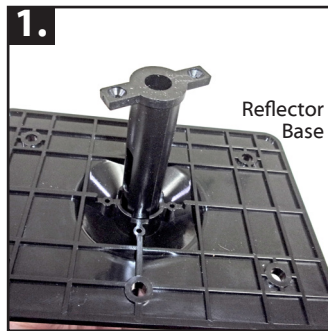

## What's in the box

Make sure you have all the parts before you start putting the reflector together.

- A:** Support shaft
- B:** Stainless bolt, lock washer and nut
- C:** Two (2) small self-tapping screws
- D:** Reflector base
- E:** Reflector spinner

1. Insert the **Support Shaft** through the bottom of the **Reflector Base**.
2. Align the 2 mounting holes of the **Support Shaft** with either set of holes in the bottom of the Reflector Base.
3. Install the two (2) **Small Self-Tapping Screws** to hold the **Support Shaft** to the **Reflector Base**.
4. Reflector Base with Support Shaft
5. Align the **Support Shaft** and **Spinner Shaft** holes. This is for the bolt, washer and nut that hold the base to the spinner and allow for tilting.
6. One side of the Support Shaft has a hex shaped pocket for the head of the **Stainless bolt**. Insert the bolt from this side and use the washer and nut on the opposite side.
7. Slide the **Stainless Lock Washer** over the threads of the bolt. Install the **Stainless Nut** and hand tighten. Snug with tight with a wrench - do not overtighten.
8. To angle the **Reflector Spinner**, loosen the nut and bolt, tilt to the desired angle then retighten. Careful not to overtighten.

# Scare Away Bird Reflector

Scare Away Bird Deterrent Reflector needs only sunlight and a slight breeze to deter pest birds from localized areas. Used for the spot control of seagulls, pigeons and other migratory birds, this spinning deterrent reflects bright sunlight in all directions. Changing light and wind conditions change the reflection intensity and frequency.

Installation is easy. The poly resin base comes with 6 mounting holes. You can fasten the reflector with the hardware of your choice or use adhesive or the optional suction cup kit. The suction cups can fasten to cars, boats, RV's, AC units, glass skylights, copper flashing and other smooth surfaces without damaging them.

While good for spot control, we suggest using the Scare Away Bird Reflector along with other bird deterrent methods and products. Vary the location of the Scare Away periodically to help prevent predictability, which birds will come to recognize.

Made from weather resistant materials, the Scare Away Bird Reflector can provide many years of outdoor service. If you have any questions about this product, please contact Nixalite of America Inc.

Item #	Description
FF SABDR .....	Scare Away Bird Deterrent Reflector
FF SC .....	Optional Suction Cup with brass thumbscrews
