

SMITH™

MULTI-USE

Sprayer Sanitizing Optimizer Kit

This sanitizing upgrade kit is a highly effective solution and alternative to much more expensive and currently hard-to-find applicators such as electrostatic sprayers. Included are two special high performing ceramic tipped nozzles that achieve an effective fine mist (70-100 microns) at 40psi and higher, and are ideal with our 18V Backpack Sprayers and other Pro sprayers. The New 4" Detail Wand allows the operator to get closer to the application areas (shopping carts, school seats, inside cars/buses, tables, work stations, playground equipment, etc.) where you don't want overspray!

The Gray SMII Cap Nut allows for fitment on our Mister/Sprayer as well as any sprayer that utilizes a TeeJet Nozzle.

As shown attached to the SMII Professional shut-off

Sprayer Sanitizing Optimizer Kit 184828 includes:

- (1) 4" SMII Poly Detail Wand
- (1) #4 Green Conejet Conical Fine Mist Nozzle
- (1) #6 Red Conejet Conical Fine Mist Nozzles
- (1) Viton Flat Nozzle Seal
- (1) Gray SMII Cap Nut

Typical Chemicals used in Sanitizing

- Chlorine Dioxide (ClO₂)
- Chlorhexidine
- Calcium Oxide (quicklime)
