Superior reliability, versatility  
and economy from IGEBA

Global ISO 9001 Certificate  
awarded to all IGEBA foggers  
and sprayers

Made in Germany

## IGEBA - The Global Standard for Excellence and Quality in Thermal Fogging

### EVO 35 ACT Thermal Fogger

An economical and lightweight pulse jet thermal fogger used to create large volumes of fog with very small particle sizes. An EVO 35 ACT can apply oil based solutions as is. By adding the optional water tube kit, it can fog water based solutions.

### EVO 35 ACT Design

This pulse jet is specially designed to be easy to use no matter where it is in the world. The lightweight design prevents fatigue. The pump assist start is the most reliable in existence.

### EVO 35 ACT Standard Features

- Advanced Carburetor Technology - ACT
- 4140 Stainless expansion chamber & fog tube
- Solution Tank is high density polyethylene
- Easy start fogger uses stainless air pump assist
- Lightweight unit, weights only 17.1 lbs empty.
- Global ISO 9001 Certificate for all IGEBA foggers
- Reliable ignition uses 4 D-cell batteries
- Large poly drain cap on solution tank
- Comes with manual, maintenance kit, 2 nozzles

### Applications:

Use the EVO 35 thermal pulse jet fogger indoors and outdoors. Can be used to fog crawl spaces, garages, basements, attics, houses, storage facilities, public spaces, schools, etc.
