

Feed The Birds, Not The Squirrels

Twirl-a-Squirrel

Twirl-A-Squirrel Electronic Bird Feeder Baffle

When a squirrel grabs on to the feeder, the Smart Sensor in the baffle ‘feels’ the weight and starts spinning the feeder. The longer the squirrel tries to hold on, the faster the baffle spins. When the squirrel lets go, the baffle slowly spins to a stop.

Several small to medium sized birds can feed at the same time without triggering the baffle. It’s only the added weight of a squirrel that starts the baffle spinning. The baffle spins filled feeders that weight up to 8 lbs.

Purchase the Electronic Bird Feeder Baffle separately or with the Super Spiral Feeder in the Super Twirl Combo.

- Allows several birds at feeder
- Easy to use, no assembly required
- Safe for birds and squirrels
- Weather resistant construction
- Needs 3 "D" batteries (not included)
- Buy separately or with Super Combo

Twirl-A-Squirrel Super Combo

The Twirl-A-Squirrel Super Twirl Combo comes with the above Electronic Bird Feeder Baffle and the matching Super Spiral Feeder at one low cost.

Super Spiral Feeders feature patented spirals that attract more birds and allow several birds to feed at one time. With 12 seed ports, birds can "run the spiral" instead of flying from port to port. Spiral design allows larger songbirds to feed without the need for a seed tray. 18" feeder holds 3 quarts of seed.

The feeder can be bought separately or with the Super Combo.

- Patented spiral perch
- Locking lid keeps out pests
- Easy to hang aluminum loop
- Easy filling and cleaning
- 18" feeder holds 3 qts of seed
- Buy separately or with combo
