

Installing Premium Model W Nixalite®

Model W Nixalite is installed on vertical surfaces only. It can be used Above Narrow Surfaces, in Climbing Animal Barriers, in Mud Swallow Installations and as a 'Row Cap' to protect other Nixalite models. Choose the application that best matches your installation and follow the guidelines provided. If you have any questions, contact Nixalite.

Above Narrow Surfaces

- A** Maximum horizontal surface coverage for Model W Nixalite is 2".
- B** Maximum distance from center of base strip to horizontal surface is 2-3/4".
- C** Maximum distance from horizontal surface and mounting hardware is 3-5/8".
- D** For this application, install Model W with the 6 wire side facing up.

Climbing Animal Barrier

- A** 2 rows Model W (top and bottom) and 4 rows Model S (in between).
- B** The top row of Model W to be 2-1/8" from object on top of pole, post or tree.
- C** Center to center spacing for all rows is 4-1/2".
- D** 6-wire side of Model W points away from inside rows.
- E** Lowest row to be 60" from ground (minimum).

Mud Swallow Installation

- A** Maximum distance from overhead surface to hardware position is 6-1/4".
- B** Maximum distance from overhead surface to Model W base strip center is 7-1/4".
- C** At least one row of Model W and Model S are required. Some installations will require additional rows of both models.
- D** For this application, install Model W with the 6 wire side facing up.

Row Cap

- A** Install Model W 'Row Cap' to protect exposed sides of Model S Nixalite below.
 - B** On curved surfaces, run all strips front-to-back.
 - C** Install Model W with the 6 wire side facing up.
- Space Nixalite to eliminate gaps between strips while preventing excessive wire crossing.
