

Mosquito Granules

Granular Repellent for Mosquitoes

Helps combat the spread of West Nile virus and other illnesses borne and transmitted by mosquitoes.

Safe, Clean, Easy:

Mosquito Repelling Granules are an **all natural** repellent that uses **no poisons**. A few of the active ingredients are Lemon Grass Oil, Mint Oil and Garlic Oil. When used as directed, these naturally occurring, biodegradable compounds pose no threat to the environment. Because it uses no poisons it can be safely applied around people, pets and plants.

Uses:

Mosquito Repelling Granules are effective in repelling **mosquitos** around homes, lawns, pool and patio areas, water gardens, tennis courts, picnics and campsites. Apply before planned occasions such as outdoor weddings, pool and patio parties, anywhere people will play or work.

Application:

Lightly sprinkle over the area to be used. It can be applied from its sprinkler cap or from a fertilizer spreader. **No mixing** or dilution is needed. For best results, apply in the early morning or in the evening when there is little or no wind. Do not water the area for 48 hours after application.

Mosquito Repelling Granules will not harm plants and is an **excellent soil conditioner and turf builder**.

Coverage Rates:

When applied with a fertilizer spreader (for more consistent coverage) one 5 lb. jug can cover up to 4,000 square feet. A case (6 - jugs) can cover up to 24,000 square feet. One application can last 2 to 3 weeks under normal weather conditions.
