poop-off!

All Marine Bird Poop Remover

All natural, non-toxic & biodegradable cleaner that dissolves bird & fish messes.

Poop-Off All Marine Bird Poop Remover is a surface and fabric cleaner and deodorizer that safely breaks down and dissolves bird droppings and fish messes. Designed for use in the highly regulated marine environment, Poop-Off can be used on the water (boats, piers, docks, etc) and on shore (buildings, pavement, awnings, etc).

Poop-Off uses naturally occurring, active enzymes and biodegradable cleaners. It does not use solvents, orange extracts, detergents, alcohol or bleach.

CAUTION! When cleaning up bird waste, wear a minimum of eye and respiratory protection and disposable gloves. Bird waste often contains harmful bacteria and parasites.

Directions for use:

To remove bird droppings, spray on the droppings until they are completely saturated. Wait a few minutes, then remove dissolved droppings by rinsing the area with water. Repeat if necessary.

For baked on bird droppings, spray the droppings until saturated and then cover with a wet cloth. Wait until the droppings dissolve and then rinse the area with water. Repeat if necessary.

To remove stains and odors from fabrics, upholstery and carpets, check for color-fastness in a small area first. Spray on stained area until saturated. Wait a few minutes then rinse the area with water or blot with a wet sponge or cloth.

To remove stains and odors from clothes, use Poop-Off as a spot stain remover. Spray the effected area until saturated. Wait a few minutes then wash the clothes normally.

This page is not intended to replace the instructions provided on the product container. Always read and follow product labeling before use.

Note: ALWAYS read all product information and the product label before application!!
