

# Nasty Mess To Clean Up? **STERI-FAB® it!**

**Bactericide, fungicide, insecticide, disinfectant and deodorizer all in one safe and easy to use spray**

Steri-Fab is a multi-purpose sanitizing spray used to neutralize bacteria, fungi, mildew, insects, odors and a variety of harmful germs. Steri-Fab kills harmful organisms and parasites often found in bird and animal droppings. After drying, Steri-Fab becomes inert, leaving no residue.

## **Steri-Fab advantages:**

- Safe and effective
- Easy to apply
- Will not stain
- Leaves no residue
- No added perfumes
- No objectionable odor
- Fast drying, inert after 20 minutes
- Will not harm fabrics, carpets and most areas where it is applied

## **Kills disease causing bacteria, parasites and more...**

- Salmonella choleraesuis
- Pseudomonas aeruginosa
- Staphylococcus aureus
- Trichopyton mentagrophytes interdigitale (athlete's foot)
- Herpes simplex II
- Aspergillus niger

## **Effective insecticide**

Roaches, mites, bedbugs, ants, silverfish, lice, louse eggs, fleas, flea eggs, ticks, sowbugs, and other insects and parasites.

## **Steri-Fab Applications:**

### **• Neutralize bird droppings:**

Steri-Fab can be used to neutralize harmful bacteria often found in bird wastes, making it safer for removal and proper disposal. Spray Steri-Fab on all bird waste, nests, and related refuse, making sure that everything is completely saturated. Keep saturated for at least 10 minutes. While still damp, remove and dispose of waste in accordance with local regulations.

**CAUTION!** When working around or cleaning up bird and animal wastes, wear a minimum of eye protection, respiratory protection, disposable gloves and clothing. Heavy accumulations of bird waste (especially in enclosed areas) can present a serious health threat.

### **• As a surface bactericide, mildewcide and deodorizer:**

Treat gross filth to neutralize as described above, clean surface and re-treat using the following procedures. Spray all surfaces until thoroughly wetted. Keep surfaces saturated for at least 10 minutes. Let air dry.

### **• As an insecticide:**

The infested areas should be sprayed thoroughly and repeatedly, directing the spray into all crevices, cracks and other hiding places. For specific insect applications refer to product labeling.

### **• To sanitize and deodorize:**

Spray on all surfaces (avoid contact with food and animals) until thoroughly wetted. Keep surfaces saturated for at least 10 minutes. Let air dry.

This page is not intended to replace the written instructions for Steri-Fab. Carefully read and follow all application, handling and storage instructions printed on the Steri-Fab containers.
